In their first official joint faculty-student action, Dean W.E. Gordon, acting head of the University, and Warren Skarren, President of the Rice Student Association, sought to accurately represent the feelings of the students and faculty concerning: (1) the procedure used to select Dr. Masterson, and (2) the appointment itself, given the present situation. All students and faculty were asked to vote on these two questions in a poll taken between 8:00 AM and 3:00 PM today. Dean Gordon and Mr. Skaarren expressed their desire to convey the results of this survey to the Board of Trustees in hopes that a more solid base of understanding can be reached.
