

The Rice Institute,

Office of the Registrar.

My dear Mr. Autry:

In accordance with our desire to make the relation between faculty and students as close as possible and as helpful as possible to the student, we have assigned each member of the student body to a faculty adviser. It is planned in so far as practicable, to make this assignment permanent in order that the student may be under the care of the same instructor throughout his entire course. We hope that students will avail themselves of every opportunity to consult with their adviser whenever difficulties of any sort arise.

We beg to inform you that Mr. N. H. Ricker has been made the adviser of your son,
James Lockhart Autry, Jr.

Very truly yours,

Samuel G. McCann
Registrar
