

My dear Sir

London Dec. 29. 1841

In respect of the telegraphs along the coast, the first thing to be done will be to have the country surveyed by one of the gentlemen of the telegraph establishment, & the stations for the several telegraphs fixed. When this will be accomplished we can have an estimate of the expense framed.

I would beg leave to suggest you the expediency of mentioning your wishes on this subject to Messrs de Longpuy, that he may order one of the Officers of the telegraph establishment to fix the stations for the telegraphs as proposed. ever My dear Sir yours
most faithfully
Wm. Thomson
Deputy Secretary
