Dear mother. Am now in this town. Nice place. We - the band - is on the second floor - window marked is the one to the room I am in.

This building is modern in every way, electric lights, steam heat, fire hose in convenient places. We are in the part arranged for a theatre, moving picture booth + machine, and a small stage. Finest place we have ever been lucky enough to get. Worth walking 150 miles to get! Paul -
